OSA-2055-68

18 June 1968

USAF Declass/Release Instructions On File

MEMORANDUM FOR: Executive Officer, OSA

SUBJECT :

[REDACTED]

25X1A

1. With the denial of funds for development of [REDACTED] under the FY-69 Budget, it appears desirable to establish a coordinated, cost-sharing proposal with Wright Field.

2. According to the attached Technical Objective 93407, the Air Force does have a firm requirement for this type of facility, and [REDACTED] is responsible officer at the Avionics Lab.

3. Quick action may be necessary, as [REDACTED] indicated yesterday that the Avionics Lab is now revising their R&D program because of recent budget cuts - maybe this could come out of VietNam money.
